

# The Real MVP Project

## Grade 7 Religion

As we have learned in the previous chapter of our religion textbooks, God is always present in our lives and influences us in ways that sometimes we don't even fully notice. God has also been around since the dawn of time and has influenced the lives of countless people throughout the course of history. Some people were chosen by God to have a profound impact on mankind and the world, even if they were not Christian, because He knew how important they would be in their time and for future generations to follow.

### Your assignment:

You will create a list of people who you would consider to be the most important religious figures throughout all of human history - and no, they don't have to be Catholic! You will choose 5 religious figures (or more, if you like. Maximum of 10) and do some indepth research about their lives. For each person you choose, you will write at least 1 paragraph describing who they are, and why you selected them for your very exclusive list.

You are certainly encouraged to use the internet to conduct your research, but do not just Google 'important religious people' and take the first 5 that you see in the search results. The people you end up selecting should be a very personal choice and you should be able to give concrete reasons why you picked them. Assignments can be handwritten or typed, but not in Powerpoint form.

Remember - they can be from any religion, past or present from around the earth: Christian, Muslim, Hindu, Buddhist, Jewish, Shinto, Sikh, etc.

Due date is TBD
